Norton AntiVirus

- Repairs many virus infections automatically, in the background.
- Script Blocking detects script-based threats even before new virus definitions are created for them.
- Automatically scans both incoming and outgoing email messages to find and eliminate viruses before they can cause damage.
- Keeps itself updated automatically whenever you connect to the Internet.

Norton Utilities

- Finds and fixes Windows problems, including software errors and hardware configuration conflicts.
- Optimizes (defrags) file storage for faster hard drive performance.
- Detects and repairs hard drive problems.

Norton CleanSweep

- Removes unneeded files left over from Internet sessions.
- Fast and Safe Cleanup can be run from CD to save hard disk space.

Norton SystemWorks

GoBack Personal Edition by Roxio

- Restores your system to a previous working state from system crashes, failed software installations, and other serious PC problems.
- Reduces downtime and data loss.

Norton Ghost

- Clones one hard drive to another.
- Creates backup disk images for emergencies.
- Restores imaged files quickly and easily.

WinFax Basic Edition

- Makes it easy to send, receive, and organize faxes.
- Turns faxes into self-viewing email attachments for recipients who don't have fax machines or fax software. (Requires a free viewer downloadable from the Symantec Web site.)
- Blocks junk faxes.
- "Print" to WinFax from any application. Thus any file on your computer can be faxed to someone.

Free fax number for incoming faxes. The fax is sent to your email. A free viewer enables you to view and print the fax. <http://www.efax.com/signup/free/page1.asp>

Efax can be used for incoming faxes and WinFax can be used for outgoing faxes. A telephone faxmodem (most modems in the past several years are faxmodems) and a telephone connection to the computer are needed.

Norton SystemWorks

Norton Internet Security (separate product from Norton SystemWorks)

http://www.symantec.com/sabu/nis/nis_pe/features.html

Key Features

- Complete integration of powerful components gives you comprehensive protection against Internet threats.
 - 24-hour protection provides for dial-up, DSL, and cable modem users.
 - Ad blocking keeps banner ads and other Web clutter off your screen.
 - Automatic Internet updates protect your computer against new Internet threats.

Norton AntiVirus™

- Automatic removal of many viruses lets you work without interruption. (One year free)
- Script Blocking stops script-based threats such as the "I Love You" and "Anna Kournikova" viruses.
- Scans and cleans incoming and outgoing email messages.
- Integration with Windows® Explorer lets you easily access many common Norton AntiVirus functions.

Norton™ Personal Firewall

- Intrusion protection, a full-strength firewall, and application control combine to protect you and your PC from online threats.
- Intrusion Protection with AutoBlock automatically blocks systems from trying to probe your PC's ports.
- Internet Access Control automatically determines which applications can safely access the Internet.
- Home Network Wizard automatically detects home networks for easy setup.

Norton™ Privacy Control

- Protects personal information from being sent to unsecured Web sites.
- Instant messaging filter blocks confidential information from being sent through MSN® Messenger, Windows® Messenger, or AOL® Instant Messenger.

Norton Parental Control

- Provides a customizable list of potentially unacceptable Web sites.
- Parental Control Wizard makes it easy to set up access privileges for each member of your household.
- Norton Parental Control automatically recognizes and uses Windows Accounts profiles.
